

Valley Research

**Level of Public Trust and Confidence
Utah State Courts
October 2006**

State Justice Institute

Prepared for:

The Administrative Office of the Utah State Courts

This survey was developed under grant number SJI-06-N-065 from the State Justice Institute. The points of view expressed are those of the author and do not necessarily represent the official position or policies of the State Justice Institute.

II. Overview	2
III. Report.	4
Demographics.....	74
IV. Counts and Percentages	84

I. Methodology

The Sample

The survey is based on telephone interviews conducted between June 28 and July 29, 2006 with 1,201 randomly selected respondents throughout Utah. Within each selected household, the adult with the most recent birthday was interviewed. The questionnaire was administered in full to every respondent. Nine attempts were made to call each telephone number and each selected adult respondent.

Survey

The Utah Public Trust and Confidence Survey questions were adapted from the California State Courts survey with the permission of the California Administrative Office of the Courts.

Sampling Error

The percentages reported for the entire sample are within plus or minus 2.8% of the percentages that would be found if all eligible respondents were interviewed. For example, if our survey showed that 50% of respondents answered a question in a certain way, then the comparable figure for the population would be somewhere between 47.2% and 52.8% at a 95% confident level.

Reducing Survey Biases

Conducting a survey of public attitudes involves many procedures that may inadvertently introduce bias into the results. Every effort was made to reduce such bias; unfortunately, it is difficult to accurately measure the extent of these biases. Good surveying techniques, interviewer training, and close interviewer supervision reduce the extent of these biases but they can never be entirely eliminated. It is possible that the results would have changed had the questions been reworded, reordered, or different interviewing techniques (e.g., face-to-face interviewing) implemented.

II. Overview

Respondents expressed a high level of confidence in the public institutions in Utah. Local police and sheriff ranked highest with an 83.9% confidence level and the Utah State Legislature ranked the lowest with a 69.0% confidence level.

The overall opinion of the Utah courts was good with a 76% rating on the positive options.

Only 12% of respondents said they had no familiarity with the courts. Those familiar with the Utah courts were most familiar with the district courts followed by the juvenile and justice courts.

One-third of the respondents at one time have needed information about the courts and have sought it at the counter in the courthouse and on the Internet. One hundred percent of those accessing the Utah State Courts website found it useful and 88% of those going to the courthouse for information found it useful.

When asked which of a selection of sources they used for information about the Utah courts, most indicated that television news was their primary source followed by newspapers and news magazine. The third most used source are television crime dramas and court reality programs such as Judge Judy, Law & Order, CSI, and Court TV.

Half of the respondents said they have had a personal experience with the courts. Most indicated it was a criminal matter followed by a civil matter. The reason for the contact, by most, was related to jury duty.

Nearly 6 out of 10 reported that the case with which they had the experience was resolved favorably. Thirty-six percent of those involved with the courts said the experience made them more confident in the system. Thirty-six percent said it made no difference. Twenty-seven percent said it made them less confident in the court system.

Twenty-six percent of the respondents said they had considered going to court but had decided not to. We asked them a series of 12 questions presenting possible reasons for not going to court and asked if those reason would prevent them from doing so. The same series of questions were asked to those saying they had not considered going to court. In this case we asked if there might be a reason that would make them consider not going to court. It was remarkable how closely the responses match in most cases.

Finally, the respondents were asked to rate how the Utah courts were doing in serving the public needs in the areas of protecting constitutional rights, providing public safety, reporting on the courts performance, generating revenues for

government, and assisting defendants to act as their own attorney. Then they were asked how important it was that the courts did these things. While they felt the Utah courts were doing very well in four of the five areas, they did not feel the courts were performing to the importance they place on these areas.

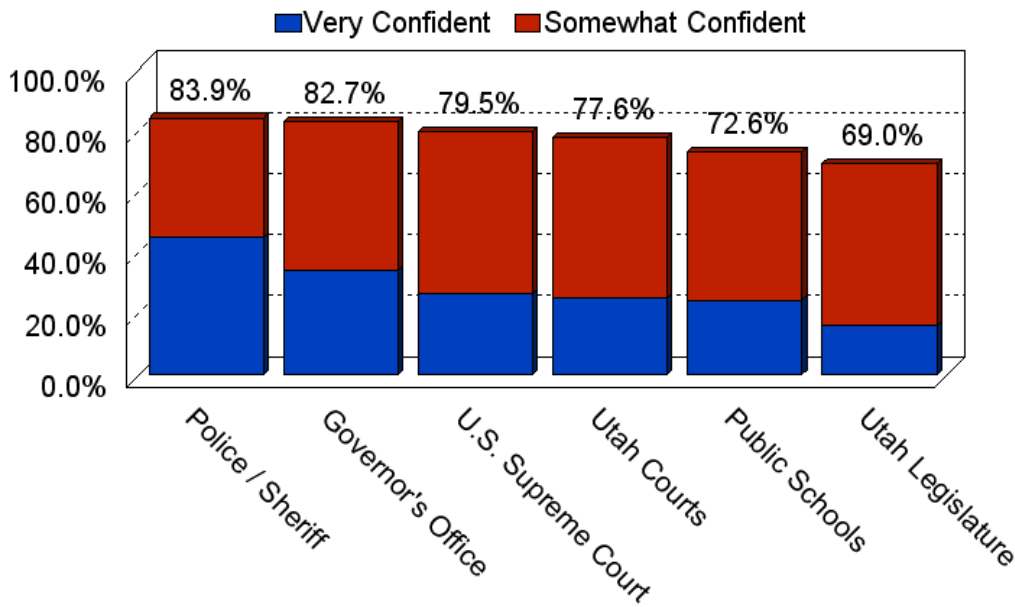

III. Report

ATTITUDES TOWARDS PUBLIC INSTITUTIONS

The first series of questions were asked to determine the confidence the respondents had in various public institutions including the Utah courts. The series of questions were rotated so that each respondent answered them in a different sequence to eliminate any position bias.

Summary Results:

Confidence In Public Institutions

n=1201

Overall, respondents displayed a high level of confidence in all the institutions.

They had the highest level of confidence in their local police and sheriff and the lowest level of confidence in the Utah State Legislature. Detailed results of each are featured in the following graphics.

Q2

In general, how would you rate your **confidence** in your local Police Department or County Sheriff?

Local Police / County Sheriff

Rate your confidence

n=1,201

Eighty-four percent of the respondents indicated they had confidence in their local police and county sheriff.

There was a 10% higher confidence rate with the urban respondents than the rural respondents and the younger and lower income age groups were less confident. The Hispanic respondents had a significantly higher level of low confidence.

Q6

In general, how would you rate your **confidence** in the Governor's Office?

Governor's Office

Rate your confidence

n=1,201

Next to the police and sheriff, the respondents had the most confidence in the Governor's Office. The only weakness appeared in the lowest income groups and the Hispanic group.

Q3

In general, how would you rate your **confidence** in the U.S. Supreme Court?

U.S. Supreme Court

Rate your confidence

n=1,201

Overall, the confidence level was at 80%. Confidence was highest in the middle income and younger age groups.

Q4

In general, how would you rate your **confidence** in the Utah Courts?

Utah Courts

Rate your confidence

n=1,201

The confidence in the Utah Courts closely matches the confidence in the U.S. Supreme Court.

The youngest age group seemed to have the most confidence and the oldest age group the least confidence. The lowest income bracket had only a 55% confidence level versus the 78% overall confidence. The upper four income brackets had the most confidence exceeding the average by 10%. The Hispanic respondents have a lower level of confidence in the Utah courts.

Q1

In general, how would you rate your **confidence** in the Public Schools?

Public Schools

Rate your confidence

n=1,201

One in four respondents said they a very high level of confidence in the public schools. Overall, nearly three-fourths of the respondents expressed confidence. There were no significant differences among the age groups. Women tend to be more confident than the men. The middle to upper income groups were slightly higher.

Q5

In general, how would you rate your **confidence** in the Utah State Legislature?

Utah State Legislature

Rate your confidence

n=1,201

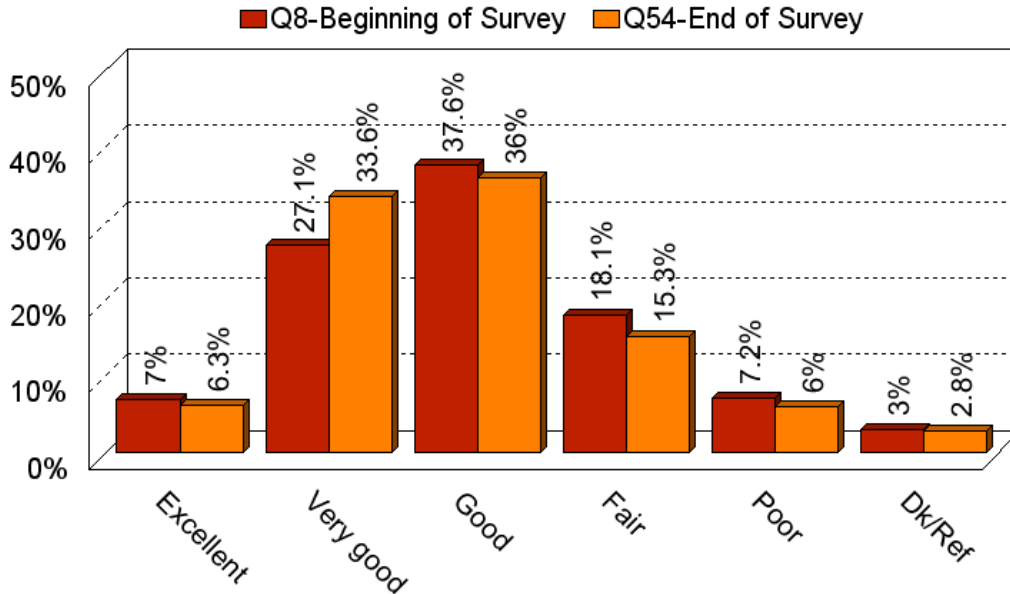

The Utah State Legislature had the lowest overall confidence level of any of the public institutions. In the 55-64 and 65 or older age groups, the not very confident and not at all confident levels were 23% and 28%. Women had more confidence in the legislature than did men.

Q8 / Q54

Overall, what is your opinion of the Utah courts?

Utah Courts

Overall opinion - beginning / end of survey

n=1,201

This question was asked twice. It was asked at the beginning of the survey to measure top-of-mind opinion. Then the question was asked again at the end of the survey to see if the questions about the courts and legal system had any effect on their opinion.

In this case, the effect was positive and improved their overall opinion about the Utah courts from 72% to 76% positive. The Hispanic group, however, rated the Utah courts fair and poor on a 2 to 1 ratio over the other respondents.

SUBJECTIVE KNOWLEDGE OF COURTS:

Q9 For the next questions, please focus on just the Utah courts.

The entire justice system includes courts, judges, lawyers, police, civil and criminal justice at both the state and federal levels. For all the rest of the questions, I'd like you to think **ONLY** about THE UTAH STATE COURTS. This includes the judges, their staff, and clerks who work in Utah courthouses, but **DOES NOT INCLUDE** the police, prosecutors, or lawyers. And, again, does not include Federal Courts.

Which of the following best describes how familiar you are with the Utah courts?

- 1) Intimately familiar: know many details about the court's operation and organization
- 2) Broadly familiar: know some details about the court's operation and organization
- 3) Familiar: know about the court's operation and organization in general terms
- 4) Somewhat familiar: know very little about the court's operation and organization beyond location, name, etc.
- 5) Not familiar at all

Familiarity with Utah Courts

n=1,201

Only 12% of the respondents said they had no familiarity with the Utah courts. Half of the respondents said they were intimately familiar, broadly familiar, or familiar with the courts. The lowest and the two highest income groups comprised the highest responses to be intimately familiar. However, the two highest income groups are small and therefore the data needs to be viewed with caution.

Q8 Opinion of Utah courts (At the beginning of survey) / Q9 Familiarity with courts

	Intimately	Broadly	Familiar	Somewhat	Not at all
Excellent	13.1%	9.1%	8.2%	4.7%	4.8%
Very good	13.1%	33.2%	27.4%	29.5%	20.4%
Good	27.4%	28.3%	36.5%	43.1%	41.5%
Fair	16.7%	18.2%	20.7%	17.0%	16.3%
Poor	29.8%	11.2%	6.4%	2.9%	4.8%
Don't know	0.0%	0.0%	0.9%	2.9%	12.2%
Count	84	187	329	448	147

Q54 Opinion of Utah courts (At the end of the survey) / Q9 Familiarity with courts

	Intimately	Broadly	Familiar	Somewhat	Not at all
Excellent	16.5%	7.0%	6.4%	3.6%	8.1%
Very good	20.0%	36.4%	35.8%	33.7%	33.1%
Good	18.8%	29.9%	33.9%	44.9%	31.8%
Fair	18.8%	20.3%	17.3%	12.5%	10.8%
Poor	23.5%	5.3%	5.8%	3.1%	5.4%
Don't know	2.4%	1.0%	0.9%	2.2%	10.8%
Count	84	187	329	448	147

At the beginning of the survey, nearly one in three of those intimately familiar with the Utah courts had a poor opinion of the courts. That dropped significantly when the question was asked again at the end of the survey and their excellent and very good opinion increased significantly. All other degrees of familiarity had a much higher opinion of the Utah courts.

Q9 Familiarity with the courts / D5 Education

	Less than High Sch	High School	Some College	College graduate	Some Graduate	Grad/Prof
Intimately	6.3%	7.4%	5.1%	6.7%	6.7%	13.8%
Broadly	9.4%	10.6%	15.9%	15.5%	17.8%	27.6%
Familiar	25.0%	24.5%	29.7%	27.3%	37.8%	26.7%
Somewhat	43.8%	42.9%	36.8%	36.1%	31.1%	27.6%
Not at all	15.6%	14.2%	12.3%	14.2%	6.7%	4.3%
Count	32	282	391	330	45	116

Those with graduate or professional degrees were most familiar with the Utah courts at the intimately and broadly familiar levels. Across most educational groups the familiarity was in the somewhat familiar range.

The following tables show how very important the Internet is in providing information.

Q9/Q11							
Familiarity with the Utah Courts / Where did you go for this information (First Response)							
391	Court Web	Courthouse	Attorney	Internet	Phone Bk	Total	Average
Intimately	13.5%	21.6%	19.0%	11.9%	0.0%	50	16.1%
Broadly	32.4%	23.2%	21.4%	28.6%	27.3%	80	25.8%
Familiar	27.0%	24.8%	42.9%	35.7%	31.8%	96	31.0%
Somewhat	24.3%	28.0%	14.3%	22.6%	36.4%	77	24.8%
Not at all	2.7%	2.4%	2.4%	1.2%	4.5%	7	2.3%
Total	37	125	42	84	22	310	79.4%

Q9/Q11							
Familiarity with the Utah Courts / Where did you go for this information (First Response)							
391	Court Web	Courthouse	Attorney	Internet	Phone Bk	Total	Average
Intim. / Broad.	45.9%	44.8%	40.5%	40.5%	27.3%	130	41.9%
Familiar	27.0%	24.8%	42.9%	35.7%	31.8%	96	31.0%
SW / Not at all	27.0%	30.4%	16.7%	23.8%	40.9%	84	27.1%
Total	37	125	42	84	22	310	79.4%

Eighty percent of 391 respondents who said they have had to get information about the courts got their information from these five sources in their first response.

Those intimately familiar used the courthouse and attorneys above average. However, if court website and Internet are combined, together they are the number one source. Those broadly familiar use the court website, Internet, and phone book more frequently than the courthouse and attorneys. Those familiar use attorneys and the Internet above average. Again, if you combine the two Internet sources they are number one.

If we combine the intimately and broadly familiar categories, the court website and the Internet combined to be overwhelmingly the top source of information. Those less familiar with the courts use the phone book most frequently followed by the courthouse as the source of their information.

In another section, we asked specifically about getting information about the courts from various media and entertainment sources. The follow tables compare those sources of information with those having various degrees of familiarity with the courts. Below are comparisons for those using the sources often and sometimes and then a comparison combining often and sometimes.

For example, 23.7% of those intimately familiar often get their information from the Internet, but only 8.4% use the newspaper. Twenty-three point seven percent of those broadly familiar often get their information from the Internet, but 20.1% use the newspaper.

Significantly, 42.5% those somewhat familiar often get their information about courts from TV dramas. It was their number one source by 8%.

Q9 / Q14-18							
Familiarity with the Utah Courts / How often get information from...							
OFTEN	Internet	Newspaper	Radio	TV News	TV Dramas	Total	Average
Intimately	23.7%	8.4%	8.1%	7.9%	8.6%	101	9.3%
Broadly	23.7%	20.1%	17.6%	13.6%	11.2%	173	15.9%
Familiar	27.6%	32.1%	31.8%	33.9%	24.0%	332	30.6%
Somewhat	13.2%	30.3%	32.4%	34.5%	42.5%	362	33.4%
Not at all	11.8%	9.1%	10.1%	10.2%	13.7%	117	10.8%

By combining the intimately and broadly familiar categories

Q9 / Q14-18	Internet	Newspaper	Radio	TV News	TV Dramas	Total	Average
Intim / Broad	47.4%	28.5%	25.7%	21.5%	19.7%	274	25.3%
Familiar	27.6%	32.1%	31.8%	33.9%	24.0%	332	30.6%
SW / Not at all	25.0%	39.4%	42.6%	44.6%	56.2%	479	44.1%

The intimately and broadly familiar indicated they used the Internet much more frequently for their information compared to any other source. However, 56.2% of the somewhat and not at all familiar respondents get their information from TV dramas most frequently.

Q9 / Q14-18							
Familiarity with the Utah Courts / How often get information from...							
SOMETIMES	Internet	Newspaper	Radio	TV News	TV Dramas	Total	Average
Intimately	9.3%	5.1%	4.7%	5.2%	4.3%	91	5.4%
Broadly	24.2%	15.9%	16.3%	16.5%	11.9%	277	16.3%
Familiar	30.8%	29.0%	33.2%	26.7%	30.1%	501	29.5%
Somewhat	31.9%	42.3%	37.3%	41.7%	42.4%	680	40.1%
Not at all	3.8%	7.7%	8.5%	10.0%	11.3%	148	8.7%

Q9 / Q14-18	Internet	Newspaper	Radio	TV News	TV Dramas	Total	Average
Intim / Broad	33.5%	21.0%	21.0%	21.7%	16.2%	368	21.7%
Familiar	30.8%	29.0%	33.2%	26.7%	30.1%	501	29.5%
SW / Not at all	35.7%	50.0%	45.8%	51.7%	53.6%	828	48.8%

A similar pattern is found in those using the information sources sometimes.

Q9 / Q14-18							
Familiarity with the Utah Courts / How often get information from...							
Often/Sometimes	Internet	Newspaper	Radio	TV News	TV Dramas	Total	Average
Intimately	13.6%	6.4%	5.8%	6.4%	6.2%	192	6.9%
Broadly	24.0%	17.6%	16.7%	15.2%	11.6%	450	16.2%
Familiar	29.8%	30.2%	32.8%	29.7%	27.5%	833	29.9%
Somewhat	26.4%	37.5%	35.8%	38.6%	42.4%	1042	37.5%
Not at all	6.2%	8.3%	9.0%	10.1%	12.3%	265	9.5%

Q9 / Q14-18	Internet	Newspaper	Radio	TV News	TV Dramas	Total	Average
Intim / Broad	37.6%	24.0%	22.5%	21.6%	17.8%	642	23.1%
Familiar	29.8%	30.2%	32.8%	29.7%	27.5%	833	29.9%
SW / Not at all	32.6%	45.8%	44.8%	48.7%	54.8%	1307	47.0%

Combining the results of the often and sometime, the Internet remained the most used source for information followed by newspaper. While we have no way of actually knowing, we would suspect radio was slightly higher because it is often listened to during the day in the work environment and during drive time in the automobile. Also, news and talk radio are popular formats and more information, issues and news are covered versus the 15 minutes of news content of the late news.

Once again, the Internet as a primary source of information is confirmed.

Q9A

Which branch or branches of the state courts would you say you are most familiar with: (Probe for up to three responses.)

Levels Most Familiar With

Name up to three

n=1,283

Those answering they had some familiarity with the courts were asked with which levels of the court they had the most familiarity. Up to three answers were accepted. There were a total of 1,283 responses by the 1,050 respondents indicating that most have familiarity with only one level of the court system. Only 61 had familiarity with more than two levels.

Rural respondents skewed higher in familiarity with the juvenile courts and the urban respondents with the Supreme Court. Women were more likely to be familiar with the juvenile courts and men with the district and supreme courts.

Q9A / Q11							
Familiarity with state courts levels/Where did you go for this information (First Response)							
373	Court Web	Courthouse	Attorney	Internet	Phone Bk	Total	Average
District	57.9%	51.2%	50.0%	59.5%	55.0%	165	54.5%
Juvenile	13.2%	18.2%	22.5%	9.5%	10.0%	46	15.2%
Justice	18.4%	19.0%	15.0%	15.5%	15.0%	52	17.2%
Appeals	5.3%	1.7%	0.0%	0.0%	0.0%	4	1.3%
Supreme	5.3%	4.1%	7.5%	10.7%	5.0%	20	6.6%
Don't Know	0.0%	5.8%	5.0%	4.8%	15.0%	16	5.3%

Eighty-one percent of the 373 respondents who said they needed information, used these five sources and also answered their familiarity with the levels of the courts.

While more than half of those familiar with the district courts used all five sources, once again the court website and the Internet combine to be the top source.

Those most familiar with the juvenile courts relied on attorneys as much as the Internet for their information. Those familiar with the justice courts used all sources with the court website and Internet combining to be the top source.

SOURCES OF INFORMATION:

Q10

Have you ever needed to get information about the courts?

Ever Needed Information About the Courts

n=1,201

Only one-third of the respondents said they have ever needed information about the courts. The 65 plus age group respondents answered “no” 2 to 1 over the other age groups. And the upper income groups answered yes more frequently. The Hispanic group was 7% higher than the overall percentage.

Q11

Where did you go for this information?

DO NOT READ. [Enter all that apply.] [Probe once: Anywhere else?]

Source of Information

Where did you go for information?

n=482 (Total exceeds 100% due to multiple answers)

There were 390 respondents eligible to answer this question, but they could answer more than once so there were a total of 482 responses. Most went to the courthouse for their information and the next most went to the general Internet. Because the list was not read, it is possible that a number of those answering generically “Internet” might have gone to the court website. Combining the court website and the Internet makes the Internet the leading source for information with a 37.2%.

Urban residents were more likely to use the Internet and the rural residents were more likely to go to the courthouse. The three younger age groups were strong in both going to the courthouse and using the Internet. There were no particular trends in the income breakouts. The Hispanic group skewed slightly higher in courthouse visits and slightly lower on Internet usage.

Those responding with a source of information other than those on the list are detailed on the following page.

Q12 [Those answering court website in Q11 answered this question]
How useful was the information provided by the Court website?

Those Using Court Website

How useful was the information provided?

n=43

The 43 respondents specifically naming the court website found it useful in providing the information they were seeking. The group is too small to draw any meaningful cross tabulation.

Q13 [Those answering courthouse in Q11 answered this question]
How useful was the information provided by the Court staff?

Those Contacting Courthouse

How useful was the information provided by the court staff?

n=142

Eighty-eight percent of those going to the courthouse for their information found the information they received to be useful. Again the groups are too small for significant cross tabulation.

Sources of information about the Utah courts:

Sources of Information

Where respondents get information about Utah courts

n=1,201

Television news, newspapers, and news magazines are the top sources of information about the Utah courts. A significant number of people say they get their information about the courts from television programs such as Judge Judy, Law and Order, CSI, and Court TV.

Q17

How often do you get information about the Utah courts from TV news programs?

From TV News Programs

How often get information about Utah courts?

n=1,201

Seven out of ten respondents often get their information from TV news program: The 45 plus age groups utilized this source more frequently than the younger age groups.

Q15

How often do you get information about the Utah courts from newspapers or news magazines?

From Newspapers / News Magazines

How often get information about Utah courts?

n=1,201

Nearly two out of three respondents get information about the Utah courts from the newspaper or news magazines. Not surprisingly, this skews to the older age groups and higher income groups.

Q18

How often do you get information about how courts work from TV dramas, sitcoms, movies or reality shows such as Judge Judy, Law & Order, or CSI?

From TV Dramas, Sitcoms, Movies, or Reality Shows

n=1,201

Forty-five percent said they often or sometime got their information about how courts work from television programs such as Judge Judy, Law & Order, CSI, dramas, sitcoms, movies or reality shows such as Court TV.

Rural respondents were more likely to use this source as were the 18-24 year old respondents. Sixty-seven percent of the Hispanic groups said they utilize this source.

Q16

How often do you get information about the Utah courts from the Radio?

From the Radio

How often get information about Utah courts?

n=1,201

Thirty-nine percent say radio is a source of information. There was nothing significant in the demographic cross tabulations.

Q14

How often do you get information about the Utah courts from the Internet?

From the Internet

How often get information about Utah courts?

n=1,201

Nearly half of the respondents have never access the Internet for information about Utah courts. Three out of four respondents hardly ever or never access the Internet for this information.

Nearly a third of the respondents indicated they needed information about the courts at sometime and 83% of the respondents indicated they have access to the Internet.

COURT EXPERIENCE:

Q19

Have you or anyone in your household ever had any direct experience, contact, or involvement with a court case which brought you into a Utah courthouse, including being called in for jury duty?

Court Experience

Direct experience, contact or involvement with a court case

n=1,201

About half of the respondents have had direct experience, contact or involvement with a court case. This experience increases with age, but someone in the household was strongest in the 18-24 age group.

Q20

Please think about that case, or if there was more than one, think about the one that made the strongest impression on you. Did it involve...

Did That Case Involve...

n=631

Parking and traffic tickets and juvenile delinquency matter were strongest in the 18 to 24 year old age group. Criminal matters were nearly even across all age groups. Parking and traffic tickets more prevalent with men and family matters more prevalent with women. Urban respondents were stronger in parking and civil matters and rural respondents in family and criminal matters. The Hispanic group skewed slightly higher in civil matter and juvenile cases.

Other (Specify):

Q4 Confidence in the courts / Q20 Case involved...

	Parking Traffic Ticket	Civil Accident Injury	Family Divorce Custody	Adult Criminal
Very confident	18.4%	23.2%	24.7%	24.6%
Somewhat confident	57.9%	58.0%	47.1%	49.3%
Not very confident	13.2%	8.9%	20.0%	16.1%
Not at all confident	9.2%	7.1%	5.9%	3.2%
Don't Know	1.3%	2.7%	2.4%	0.0%
	76	112	85	207

(Note: Only these four groups had sufficient responses to cross tabulate)

Four of the areas of involvement with the Utah courts had enough respondents to cross tabulate with their confidence in the Utah courts from question four.

The results were consistent across all four groups with 70% to 80% being very confident or somewhat confident.

Q21

In this case were you...

In This Case Were You...

n=631

Being called to jury duty or chosen to serve on a jury increased steadily as age increased. Women were also more likely to serve on jury duty. The younger age groups were more likely to be directly involved as a defendant, witness, or victim. And the lower income respondents were more likely to be defendants. The Hispanic group indicated they were half as likely to be called for or sit on a jury and much more likely to be the person filing a suit, being sued, being a defendant, or being the victim.

The actual jury demographics, based on the 2003-2005 statewide jury survey of 2,351 jurors, do not agree with the age data above. The juries were evenly distributed in the 18 through 49 age groups and then declined significantly in the age groups between 50 and 70 plus years of age. The women, however, did skew higher in the juror surveys by 53% to 47% men.

Q4 Confidence in the Courts / Q21 In this case were you...

	Called for jury	Served on jury	Person filing suit	Person being sued	Witness in case	Defendant	Victim in case
Very confident	29.1%	24.2%	28.6%	9.7%	31.8%	11.9%	16.7%
Somewhat confident	50.7%	63.2%	42.9%	61.3%	42.0%	54.6%	51.9%
Not very confident	12.7%	6.3%	17.1%	9.7%	12.5%	21.4%	16.7%
Not at all confident	4.5%	5.3%	7.1%	16.1%	10.2%	10.7%	13.0%
Don't Know	3.0%	1.1%	4.3%	3.2%	3.4%	1.2%	1.9%
Count	134	95	70	31	88	84	54

Those called for jury duty, but not serving and those serving on a jury expressed a slightly higher confidence level in the Utah courts than did those directly involved in a case. Only one in three victims said they were not very or not at all confident. And only about one-fourth of all the others directly involved in a case expressed a negative confidence.

Q22

Was the result of this case favorable or unfavorable for your side of the matter?

Case Results

For your side of the matter

n=234

The lowest income group reported a greater percentage of unfavorable results. In all other income groups the favorable results were greater than the unfavorable. The youngest age group, which is the most directly involved, also had the highest percent of unfavorable results. Women indicated higher favorable results than did the men.

Q23

Did this experience make you more confident or less confident in the courts or did it have no effect?

Confidence as Result of Experience

n=631

In a cross tabulation of those having favorable and unfavorable outcomes, 45% of those with favorable results were much more or somewhat more confident as a result. However, 75.4% of those with unfavorable results had somewhat or much less confidence as a result. Those with unresolved cases also had less confidence. Women tended to be more confident as a result of their favorable results.

In a cross tabulation of the two major ethnic groups – Caucasian and Hispanic – there was no significant difference in the outcome percentages and whether they were more or less confident as a result. Because of the small size of the Hispanic group (20) in comparison to the Caucasian group (133), caution must be exercised in drawing comparisons.

This table explores the relationship between the respondent's involvement and experience with the court system and whether it made the respondent more or less confident in the courts.

Q21 / Q23									
Effect of experience with the courts on confidence in the courts.									
Confidence	Called jury - Not selected	Called jury - Selected	Filed lawsuit or action	Person being sued	Witness	Defendant	Victim	Other	Average
Much More	13.4%	20.0%	18.6%	15.6%	19.5%	15.1%	18.5%	23.1%	18.0%
Somewhat More	15.7%	30.5%	17.1%	6.3%	12.6%	9.3%	20.4%	32.7%	18.1%
Had No Effect	63.4%	33.7%	31.4%	28.1%	35.6%	25.6%	24.1%	15.4%	32.2%
Somewhat Less	1.5%	7.4%	14.3%	28.1%	9.2%	15.1%	9.3%	11.5%	12.1%
Much Less	4.5%	8.4%	18.6%	21.9%	23.0%	34.9%	27.8%	15.4%	19.3%
Total	134	95	70	32	87	86	54	52	610
Much / SW More	29.1%	50.5%	35.7%	21.9%	32.1%	24.4%	38.9%	55.8%	36.1%
Had No Effect	63.4%	33.7%	31.4%	28.1%	35.6%	25.6%	24.1%	15.4%	32.2%
SW / Much Less	6.0%	15.8%	32.9%	50.0%	32.2%	50.0%	37.1%	26.9%	31.4%
Total	134	95	70	32	87	86	54	52	610

Only those respondents saying their involvement was the person being sued or the defendant in a case indicated a higher level of being somewhat or much less confident in the courts. However, nearly one in four of those in these two group felt it made them much more or somewhat more confident.

Half of those who were called to jury duty and served on a jury came away much more or somewhat more confident in the courts. Less than one in six serving on a jury said they were less confident.

Those in the other group classification were attorneys, court personnel, police or just observers.

Across the spectrum of involvement, it averages out that involvement with the courts in any capacity made the respondents slightly more confident in the system.

Q24

When did this court contact take place?

When Contact Took Place

n=631

Half of all the contacts with the courts have taken place in the past three years.

Q25

In the last three years, have you done any business with the courts on the website, over the phone, or in person over the counter?

Business With Courts

Past three years - website, phone, in person

n=1,276 (Percentage exceed 100% due to multiple responses)

There are 302 respondents indicating they have had contact with the courts in the past three years via website, phone or the counter in the courthouse.

Q26 [Those using the website]

In general, were you satisfied or dissatisfied with the Website content?

Website Contact

Those using the website

n=59

Fifty-nine of the 302 respondents used the website to contact the courts. More than half were very satisfied. Totally, 88% were satisfied with the experience.

The sample size is too small for significant cross tabulation.

Q27 [Those contacting by phone]

In general, were you satisfied or dissatisfied with your phone contact?

Phone Contact

Those using the phone

n=104

About twice as many people made contact by telephone than used the website for contact. The very satisfied and overall satisfaction level was slightly lower than the Internet experience.

Q28 [Those making an in person counter contact]

In general, were you satisfied or dissatisfied with your in person contact?

In Person Counter Contact

Those visiting in person

n=214

Twice as many respondents visited the courthouse in person than used the phone to do business with the Utah courts and four times as many visited the courthouse than utilizing the website to conduct their business with the Utah courts.

The very satisfied dropped again and the overall satisfaction dropped again going from 88% by website, 82% by telephone, and now 78% for the in person visit.

BARRIERS TO ACCESS:

Q29

Have you ever considered taking a case to court but decided not to?

Considered but Decided Not to Take Case to Court

n=1,201

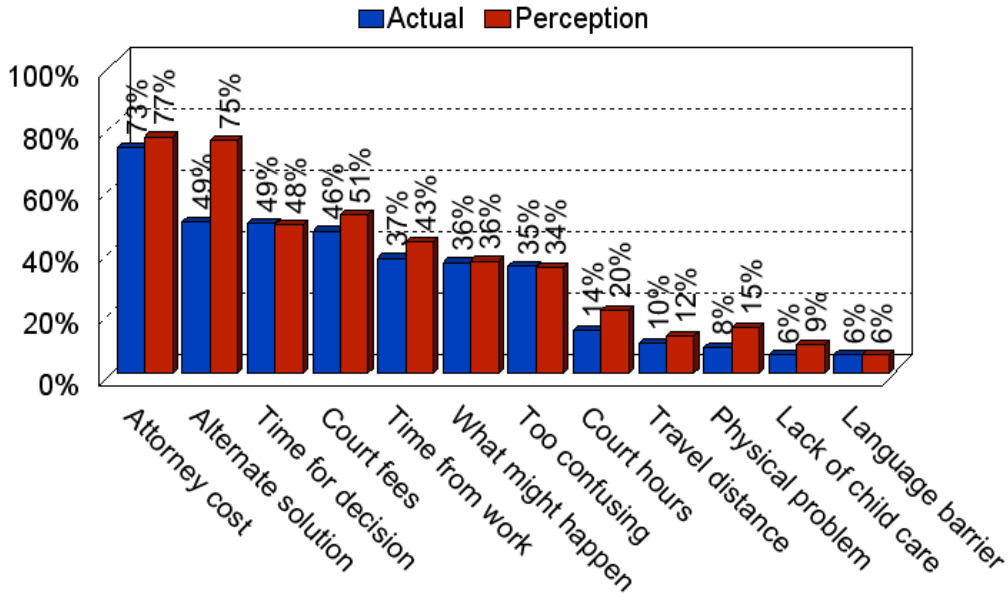

Of the 1,201 respondents interviewed, one in four (291) said they had considered taking a case to court but decided not to do so. As a follow-up to both those who had considered and those who had not considered taking a case to court, we asked a series of questions about reasons that might have influenced their pursuing the case.

The results skewed to be men and those in the \$25 - \$35,000 income group for those having considered going to court.

The summary graph that follows presents a ranking of the reasons for both those who had considered and those not considered taking a case to court.

Reason For Not Going To Court

Actual and Perception

n=1201 (Actual 291 / Perception 910)

As a result of the previous question, the respondents were divided into two groups. Those saying they had considered taking legal action but did not were asked if any of these factors were reasons that kept them from taking action. Those who said they had not considered taking legal action were asked if they were to consider taking legal action would any of these factors keep them going to court.

With one exception, the two groups rated the various reasons very similarly.

Q30A/B INTRO

I'm going to read a list of reasons that might make it difficult for people to go to court. For each one, please tell me whether or not you think it **(KEPT/ MIGHT KEEP)** you from going to court.

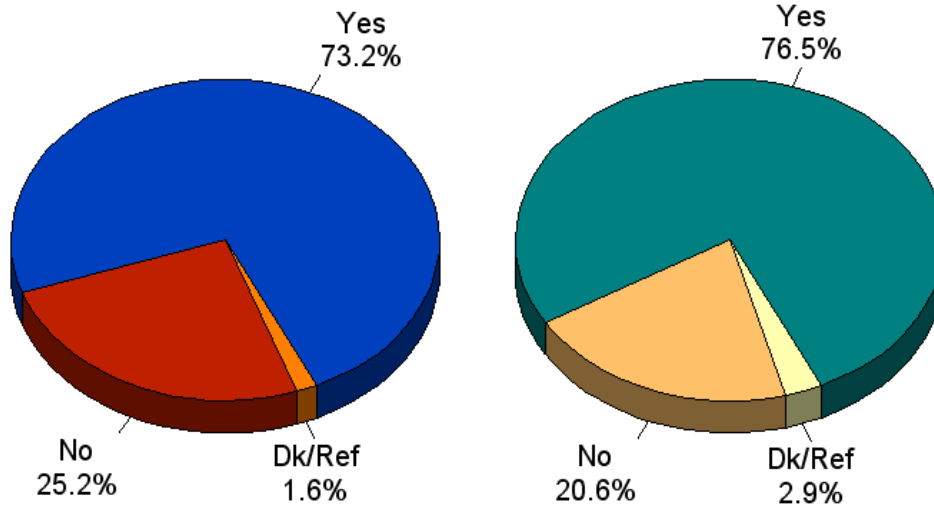

Q33A/B

Would you say the cost of hiring an attorney (KEPT / MIGHT KEEP) you from going to court?

Cost of Attorney

Left - Actual

Right - Perception

n=291 / n=910

This was the number one reason for not going to court by both groups.

This was strong across all income groups, age groups, and the rural respondents in the perception group. However, only 42% of the Hispanic perception group felt it would stop them.

Note: Because of the small size of the sample in the actual group, the group size in some of the broader cross tabulations such as income and age produce sub groups that are too small for reliable projections to the population. The pattern of men skewing stronger in the actual group and women in the perception group continues throughout the series of questions. Where this is not true, it will be pointed out.

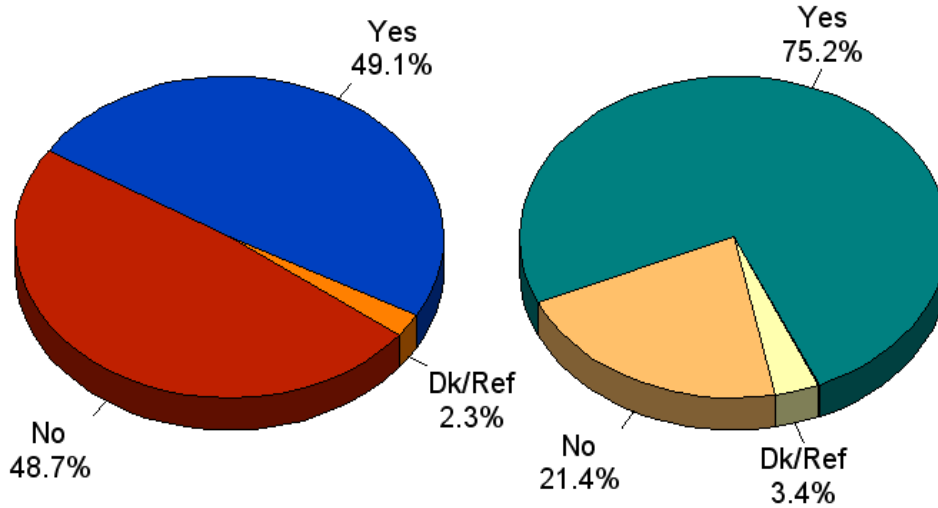

Q32A/B

Would you say the availability of another way to solve your problem (KEPT / MIGHT KEEP) you from going to court?

Another Way Available

Left - Actual

Right - Perception

n=291 / n=910

The perception group felt very strongly that finding an alternate solution would keep them from going to court.

In both groups the strength came in the middle income groups. The urban respondents more frequently answer yes in both groups. The Hispanic group was much less likely to feel this was a reason that would keep them from going to court.

Q40A/B

Would you say the length of time it might take to get a decision (KEPT / MIGHT KEEP) you from going to court?

Time to Get Decision

Left - Actual

Right - Perception

n=291 / n=910

Nearly half of both groups felt this would be a reason to not go to court. The exception was the 65 plus age group. It was not that important to them.

Q34A/B

Would you say the court fees required (KEPT / MIGHT KEEP) you from going to court?

Court Fees

Left - Actual

Right - Perception

n=291 / n=910

Court fees are perceived as being a lesser problem than attorney fees. It was more of a concern to the rural than the urban respondents.

Q39A/B

Would you say the time it took away from work or home (KEPT / MIGHT KEEP) you from going to court?

Time Away - Work / Home

Left - Actual

Right - Perception

n=291 / n=910

This is an important reason for both men and women and particularly for the 25-34 age group. It was slightly more important to urban respondents.

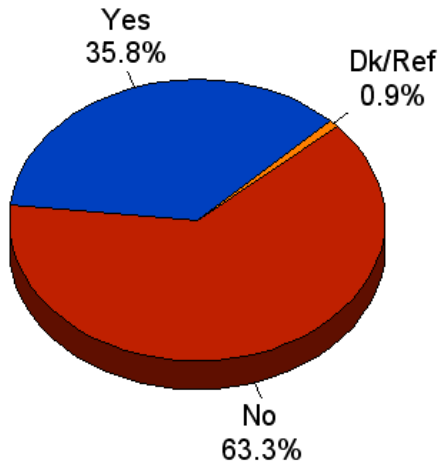

Q41A/B

Would you say uneasiness about what might happen to you (KEPT / MIGHT KEEP) you from going to court?

Uneasiness - What Might Happen

Left - Actual

Right - Perception

n=291 / n=910

This reason falls in the middle of the list in importance. There was nothing significant in the demographic break outs.

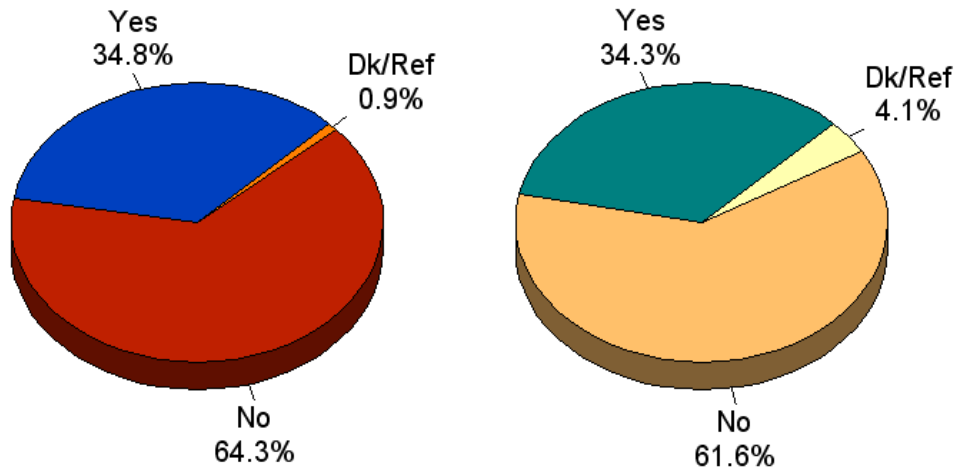

Q42A/B

Would you say that you feel the process was too confusing and that (KEPT / MIGHT KEEP) you from going to court?

Process Too Confusing

Left - Actual

Right - Perception

n=291 / n=910

This, too, falls in the middle cluster of reasons. In the actual group the response skewed to the younger men. In the perception group, the Hispanics rated it significantly higher.

Q36A/B

Would you say the hours or days the court is open (KEPT / MIGHT KEEP) you from going to court?

Hours / Days Court Open

Left - Actual

Right - Perception

n=291 / n=910

The hours and days the courts are open are not very strong reasons for not going to court. It was more important to the younger respondents and the lower income respondents. In this situation, it was a significantly strong reason for men and Hispanics, and a slightly stronger reason for urban respondents in the perception group.

Q35A/B

Would you say the distance you would have to travel (KEPT / MIGHT KEEP) you from going to court?

Travel Distance

Left - Actual

Right - Perception

n=291 / n=910

Travel distance was one of the lesser reasons for not going to court. It was a stronger reason not to go to court in the two lowest income brackets, Hispanics, and to the rural respondents in the perception group.

Q31A/B

Would you say a physical problem that makes using the courthouse difficult (KEPT / MIGHT KEEP) you from going to court?

Physical Problem

Left - Actual Right - Perception

n=291 / n=910

A very small percentage of each group considered physical problems relating to the courthouse as a reason that would keep them from going to court.

The youngest and the oldest age groups in the actual group more frequently said yes, but only the older age category in the perception group felt it was a problem. The lower income brackets in the perception group felt it was a factor. The rural respondents in both groups felt it was a factor.

Q38A/B

Would you say the lack of child care facilities at the court (KEPT / MIGHT KEEP) you from going to court?

Lack of Child Care

Left - Actual

Right - Perception

n=291 / n=910

This was the second least important reason. As might be expected this was most important to urban women, 25 to 34 year olds, and the lower income groups.

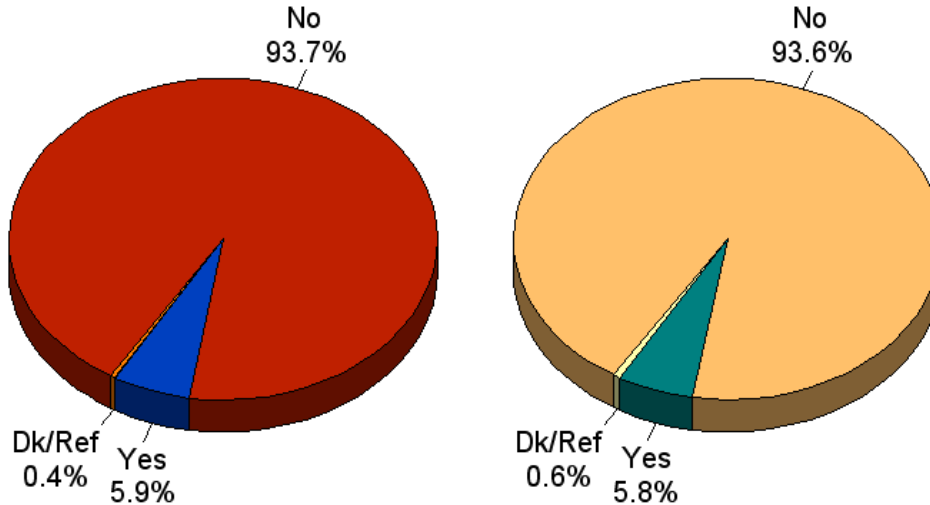

Q37A/B

Would you say difficulty with speaking, reading or understanding English (KEPT / MIGHT KEEP) you from going to court?

Problems With English

Left - Actual

Right - Perception

n=291 / n=910

This was the least of the reasons to not go to court.

In a cross tabulation analysis of the question and the ethnic demographic, those saying it was a problem breaks out as follows: 37A (Actual) – 15 Caucasian and 2 Hispanic. 37B (Perception) -- 42 Caucasian, 1 African American, 5 Hispanic, 1 Asian, and 3 Pacific Islanders.

Fifty-seven of the 1,104 Caucasians, 1 of the 8 African Americans, 7 of the 49 Hispanics, 1 of the 6 Asians, and 3 of the 9 Pacific Islanders did not feel their English skills were good enough to go to court.

Combining ethnic and age and cross tabulating to the questions, the Caucasian respondents spanned all age groups with the a little more than half in the 18-44 age groups. The one African American was in the 65 plus group. Four Hispanics were in the 18-24 age group. The remainder of the Hispanics, Pacific Islanders, and the Asians were spread across the 25-54 age groups.

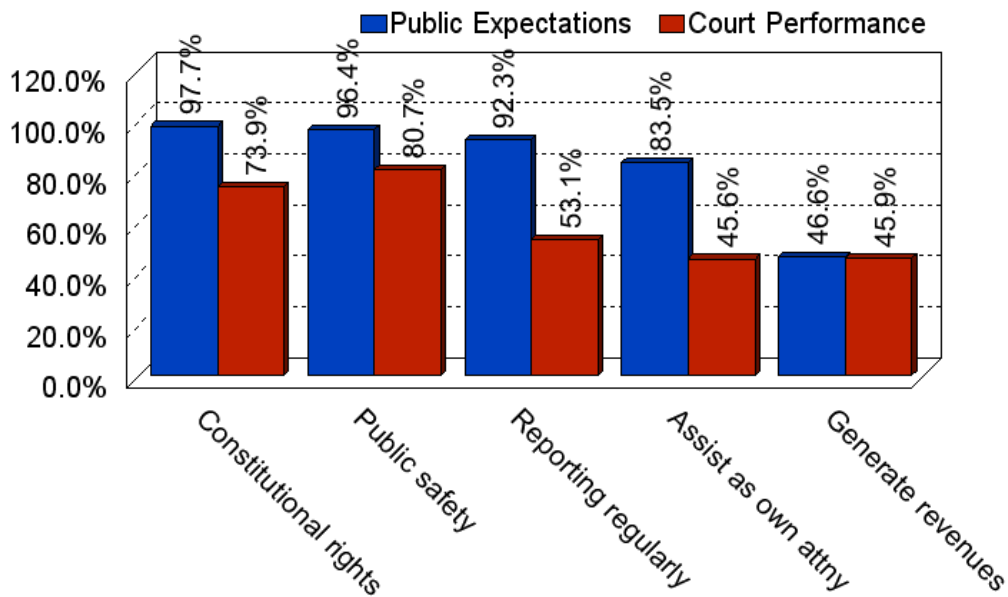

STATE COURTS – EXPECTATIONS AND PERFORMANCE: Q43INTRO

Next, I have a list of ways in which UTAH courts serve the public. For each item, I'll ask you how well you feel the courts are doing that job and then I'll ask how important you feel it is for the courts to perform that job.

Summary:

State Courts - Serving the Public

Expectations / Performance

n=1,201

The blue bar combines the result of those saying it was very important or somewhat important that the courts serve the needs of the public by protecting their constitutional rights, ensure public safety, report regularly on their job performance, assist those who want to be their own attorney, and generate revenues for the government.

Each of these court services was stated in a positive statement saying the courts were performing the service. For example: The Utah courts are protecting the constitutional right of everyone. "Do you strongly agree, somewhat agree, somewhat disagree, strongly disagree?" The red bar combines the results of those who strongly or somewhat agreed with the statement.

Except for generating revenue, which the respondents did not think it was important for the courts to do, they felt the courts were performing below their expectations.

Q43

The Utah courts are protecting the constitutional rights of everyone.

Protecting Constitutional Rights

n=1,201

Three out of four respondents agree that the courts are protecting everyone's constitutional rights. Results were very evenly spread across the gender, age and income demographics. On this issue the Hispanic group strongly agreed at a level of 45.8% versus the overall 36.0%.

Q44

How important is it for the Utah courts to protect the constitutional rights of everyone?

Protecting Constitutional Rights

How important...

n=1,201

There was no question that this is very important to those surveyed. All 49 of the Hispanic respondents agreed this was important.

Q45

The Utah courts are ensuring public safety.

Ensuring Public Safety

n=1,201

The 35 plus age groups agreed less strongly and were the strongest in the somewhat disagree response. Respondents in the \$25 - \$75,000 income groups also agreed less strongly. Fifty-seven percent of the Hispanic respondents strongly agreed.

Q46

How important is it for the Utah courts to ensure public safety?

Ensuring Public Safety

How important...

n=1,201

This was the second most important service of the courts. It was uniformly very important across all the demographics including the ethnic demographic.

Q49

The Utah courts report regularly to the public on their job performance.

Report Job Performance Regularly

n=1,201

A significant number of respondents indicated they didn't know (110). If the responses were to be recalculated eliminating the don't know responses, it would only increase the strongly agree by 2 percentage points. Those disagreeing spread uniformly across all age groups, income groups, gender, and ethnic groups.

Q50

How important is it for the Utah courts to report regularly to the public on their job performance?

Report Job Performance Regularly

How important...

n=1,201

The respondents feel it is very important that the courts regularly report their job performance.

Q47

The Utah courts do enough to assist those who want to act as their own attorney in court.

Assist - Acting Own Attorney

n=1,201

While this was the fourth most important service of the courts, but it received the lowest performance score. However, this service has the highest don't know response of any of the services with nearly one in three giving this response.

If we remove 370 respondents who did not know and recalculate the percentages based on those that did respond it creates a different picture. This brings those who agree from 45.6% to 65.8%, which is significantly better. It now becomes the third most important.

The Hispanic respondents matched the new pattern with 18.8% strongly agreeing and 45.8% somewhat agreeing.

Q47 – (Strongly Disagree) Can you tell me more about that?

Verbatim Responses:

Q47 Can you tell me more about that?
90 PERCENT CAN'T AFFORD AN ATTORNEY, SO THEY TRY TO DO IT BY THEMSELVES. YOU NEED THE BACKGROUND OF AN ATTORNEY.
A LOT OF TIMES PEOPLE CAN'T AFFORD AN ATTORNEY AND THE COURTS DON'T DO ENOUGH TO HELP THEM OUT. IT'S VERY CONFUSING FOR SOMEONE TO GO TO COURT WITHOUT HAVING A BACKGROUND IN LAW.
A PERSON IN AMERICA HAS THE RIGHT TO DEFEND HIMSELF, I HAVE A RIGHT TO SAY THIS HAPPENED AND A JUDGE DOES NOT HAVE THE RIGHT TO CALL ME ON CONTEMPT OF COURT.
ANYBODY WHO GOES TO COURT WITHOUT AN ATTORNEY WILL GET THEIR CASE DISMISSED. PROS SE WILL GET THEIR CASE DISMISSED I GUARANTEE IT.
ATTORNEYS CAN'T TELL SOMEONE HOW TO HANDLE A CASE, BUT KNOW HOW THE COURTS WORK.
BASICALLY IF YOU TRY TO ACT AS YOUR OWN LAWYER YOU ARE IN TROUBLE. YOU DON'T KNOW MUCH ABOUT LAWS.
BECAUSE I JUST DON'T THINK THAT SOMEONE SHOULD BE THEIR OWN ATTORNEY.
BECAUSE SOMEONE IS NOT WELL VERSED WITH THE LAW, THERE ARE LOOP HOLES.
BECAUSE THEY DON'T GIVE YOU ENOUGH INFORMATION THAT'S HELPFUL. INSTEAD, THE COURTS EXPECT YOU TO GO IN AND KNOW WHAT YOU'RE DOING WITHOUT TELLING YOU WHAT IS EXPECTED OF YOU AS YOUR OWN LAWYER.
BECAUSE THEY DON'T. IF YOU DON'T HAVE AN ATTORNEY YOU DO NOT GET FAIR REPRESENTATION.
BECAUSE THEY LOOK DOWN ON YOU, THEY JUDGE YOU AND IT'S IMMEDIATELY A STRIKE AGAINST YOU.
BECAUSE THOSE WHO CHOOSE TO BE THEIR OWN ATTORNEY SELDOM WIN.
BECAUSE WE'VE HAD FRIENDS TRYING TO REPRESENT THEMSELVES. THE ONES THAT DIDN'T HAVE LAWYERS GOT SCREWED AND THE ONES WITH LAWYERS GOT THEIR WAY NINE TIMES OUT OF TEN.
CAN'T GET LEGAL UNLESS YOU ARE BEING BATTERED. THE UTAH COURT SYSTEM WILL NOT RECOGNIZE A BLACKBALL EMPLOYMENT ISSUE, LAWYERS WERE CONTACTED, THIS INVOLVED A SIGNED CONTRACT ISSUE. NO HELP AT ALL.
COMPENSATED ATTORNEYS WHICH THEY SHOULDN'T GET PAID.
DISCOURAGE PEOPLE FROM DOING THAT.
EVERY ATTORNEY STRONGLY ADVISES YOU TO NOT BE YOUR OWN ATTORNEY. NOT HAVING AN ATTORNEY MAKES IT MORE DIFFICULT TO PROVE YOUR CASE.
EVERYONE NEEDS A LAWYER. IT IS INVOLVED AND AN ATTORNEY KNOWS MOST.
EXTENUATING CIRCUMSTANCES KEEP DEFENDANTS FROM HAVING THEIR NEEDS MET.
FIGHT A TICKET AND HAD TO SIGN A WAIVER SAYING SHE WOULD FIGHT AS HER ATTORNEY.

FROM MY STANCE THERE'S NOTHING I COULD DO WITHOUT HIRING AN ATTORNEY BECAUSE I DON'T KNOW ENOUGH ABOUT THE LAW. SO I THINK UNLESS YOU KNOW A LOT ABOUT THE LAW THEN YOU CAN'T REALLY REPRESENT YOURSELF.
FROM PAST EXPERIENCE, CHILD SUPPORT, INCOME CHANGED, THE COURTS TALK IN LATIN. THEY TOLD ME I NEED AN ATTORNEY.
HE WAS INVOLVED WITH A CASE AND WENT THROUGH A TRUSTEE. IT WAS ILLUMINOUS AND IT WAS A JOKE.
HIRE A LAWYER.
I DID IT ALL ON MY OWN AND I GOT DIFFERENT INFORMATION AT DIFFERENT TIMES, WHICH COST TIME AND ENERGY AND SOME PEOPLE DIDN'T EVEN WANT TO GIVE THE INFORMATION. THEY WERE VERY IMPATIENT AND VAGUE.
I DON'T LIKE THAT THOSE WHO CAN'T FINANCIALLY AFFORD IT CAN'T DO IT, THEY ARE JUST IGNORED. I JUST DON'T LIKE THE WAY THAT PEOPLE WITHOUT INFLUENCE OR MONEY ARE TREATED.
I DON'T THINK ANYBODY SHOULD DO THEIR OWN UNLESS THEY'RE A LAWYER THEMSELVES. I DON'T THINK THEY'RE CAPABLE OF TAKING CARE OF THEMSELVES ON IT. JUST LIKE A DOCTOR SHOULDN'T OPERATE ON HIMSELF. THAT'S FOR SURE.
I DON'T THINK THAT PEOPLE ARE AWARE OF THAT OPTION.
I DON'T THINK THAT PEOPLE SHOULD HAVE TO DEFEND THEMSELVES. UNDER WHATEVER SITUATION, PEOPLE SHOULD HAVE LEGAL REPRESENTATION. THE COURTS SHOULD PROVIDE LEGAL REPRESENTATION IF ONE CAN NOT AFFORD IT.
I DON'T THINK THAT THERE IS ENOUGH FUNDING FOR IT TO HAVE AN ATTORNEY ON THE JOB TO HELP THOSE PEOPLE.
I DON'T THINK THE INFORMATION IS AVAILABLE ON HOW TO REPRESENT YOURSELF. INFORMATION IS NOT READILY AVAILABLE AND PEOPLE MAY NOT HAVE THE PATIENCE IF THEY TRY TO REPRESENT THEMSELVES.
I DON'T THINK THE JUDICIAL SYSTEM PROVIDES ENOUGH INFORMATION ABOUT IT TO THE INDIVIDUAL.
I DON'T THINK THERE IS ENOUGH INFORMATION TO KNOW WHAT TO DO.
I DON'T THINK THEY EVER REALLY ACCEPT YOU AS YOUR OWN LAWYER. YOU DON'T GO TO COURT WITHOUT A LAWYER BECAUSE YOU DON'T HAVE NEARLY ENOUGH EXPERIENCE TO DEFEND YOUR CASE AS WELL AS A LAWYER WOULD. YOU'RE MORE LIKELY TO LOSE.
I DON'T THINK THEY MAKE IT EASY FOR THOSE WHO WANT TO REPRESENT THEMSELVES.
I DON'T THINK WE SHOULD. I THINK WE SHOULD HAVE TO HAVE AN ATTORNEY TO REPRESENT US. WE NEED MORE EDUCATION IN THE COURTS TO BE ABLE TO HANDLE OUR OWN PROBLEMS.
I FEEL LIKE FOR MOST PEOPLE. IT IS AGAINST THEIR BETTER JUDGMENT TO ACT AS THEIR OWN ATTORNEY RIGHT NOW, BUT WITH SOME SMALLER ISSUES IT MAY BE WITHIN THEIR CAPACITY WITH ASSISTANCE, EDUCATION, AND SUPPORT.
I FEEL LIKE HAVING AN ATTORNEY WILL HAVE YOU KNOW WHAT TO DO IN THE COURT CASE SITUATION. YOU CAN'T GO IN A COURT CASE NOT KNOWING WHAT YOU'RE DOING.
I FEEL LIKE IF YOU DON'T WANT AN ATTORNEY IT IS YOUR RESPONSIBILITY TO FIGURE IT OUT.
I FEEL NOT THAT CONFIDENT IN THE SYSTEM BECAUSE IT IS SET UP TO MAKE YOU FEEL AND LOOK LIKE A FOOL.
I HAD A LOT OF FRIENDS THAT HAD BAD EXPERIENCES. MY FRIEND'S DEFENDANT IN COURT GAVE HIM BAD ADVICE.

I HAD TO HIRE AN ATTORNEY WHO DID NOTHING FOR ME AND I WAS TOLD I HAD TO HIRE ONE OR I COULDN'T COME.
I HAD TROUBLE GETTING CUSTODY OF MY KIDS. WHOLE SYSTEM SCREWED UP.
I HAVE HEARD THAT YOU ARE AT A GREAT DISADVANTAGE.
I JUST DON'T THINK THEY REALLY DO MUCH TO HELP. I TRIED TO ACT AS MY OWN AND GOT MORE HELP FROM A PARALEGAL.
I JUST FEEL IT SHOULD BE PUBLIC KNOWLEDGE IF THEY CHOOSE TO ACT AS THEIR OWN ATTORNEY.
I REPRESENTED MYSELF IN A SEXUAL ABUSE CASE.
I THINK COURTS DON'T DO ENOUGH IN GENERAL.
I THINK IF YOU GO IN THERE BY YOURSELF AND YOU'RE ALONE, YOU WILL FALTER ON THE TECHNICALITY AND LEGALESE OF THE LAW.
I THINK IT'S TOO HARD FOR THE AVERAGE PERSON TO KNOW WHAT'S GOING ON AND HOW TO DO IT.
I THINK MY FRIENDS HAD A HARD TIME BECAUSE THEY DID NOT KNOW HOW.
I THINK THE LEGAL SYSTEM IS GEARED TOWARD LAWYERS, AND THEREFORE IT IS NOT VERY USER FRIENDLY WITHOUT ONE.
I THINK THE STATE DOES NOT GIVE ENOUGH TIME TO THE SUBJECT OR PATIENCE.
I THINK THEY MAKE IT DIFFICULT FOR A PERSON TO REPRESENT THEMSELVES.
I THINK WE HAVE A PROBLEM JUDGE.
I TRIED TO GO AND ACT FOR MYSELF. ONE TIME I TRIED TO GET A VENUE CHANGED DOWN IN MY OWN AREA. I HAD ALL THE RIGHT PAPERS AND I KNEW WHAT I WAS TALKING ABOUT, BUT THE JUDGE MADE ME FEEL LIKE AN IDIOT.
I WENT TO REPRESENT MYSELF ON A MEDIATION ON A SEPARATION WITH A CHILD, AND IT WAS REALLY DIFFICULT.
I WENT TO THE COURT SYSTEM AND IT WAS DIFFICULT, BUT AN ATTORNEY IS EXPENSIVE.
I WORKED THERE AND THEY DON'T ENCOURAGE IT.
IF THEY'RE DUMB ENOUGH TO STAND UP FOR THEMSELVES, THEN THEY GET WHAT THEY DESERVE.
IF YOU ACT AS YOUR OWN ATTORNEY BECAUSE YOU CAN'T AFFORD ONE, IT SEEMS EVERY TIME YOU OPEN YOUR MOUTH THE JUDGE GETS MAD AT YOU. YOU JUST SAY YOU'RE TELLING THE TRUTH, BUT THE COPS CAN LIE.
IF YOU DON'T HIRE A LAWYER YOU'RE SHIT OUT OF LUCK. YOU WANT TO REPRESENT YOURSELF? FORGET IT. THE JUDGE HAS NO RESPECT FOR YOU WHATSOEVER.
IF YOU GO TO COURT AND REPRESENT YOURSELF, THEY EXPECT YOU TO GO WITH AN ATTORNEY, AND THEY MIGHT EVEN HELP NOW.
I'VE BEEN IN SITUATIONS, MAINLY CHILD CUSTODY CASES, AND MY EX-WIFE DIDN'T HAVE ENOUGH MONEY TO HIRE AN ATTORNEY, SO SHE PRETTY MUCH GOT RAKED OVER THE COALS.

Q48

How important is it for the Utah courts to assist those who want to act as their own attorney in court?

Assist - Acting Own Attorney

How important...

n=1,201

Eight out of 10 respondents felt this was an important service and function of the courts. There were no significant differences or patterns in the demographics include the ethnic demographic.

Q51

One of the purposes of the courts is to generate revenue for the government.

Generate Revenue For Government

n=1,201

As many disagree as agree that this should be one of the purposes of the courts. In the next graphic, as many feel it is not an important function as feel it is an important function.

Q52

How important is it for the Utah courts to generate revenue for the government.

Generate Revenue For Government

How important...

n=1,201

This is a service of the courts that is not considered an important function of the courts.

Q53

The Utah courts do enough to make sure judges follow the rules.

Make Judges Follow Rules

n=1,201

This is another situation with a significantly high don't know response.

The disagreement with this statement was fairly uniform across all income groups but peaked in the \$10 - \$15,000 income group. The Hispanic respondents disagreeing were about 10% higher than the general results.

SINT

Do you have internet access?

Internet Access

n=1,201

Utah has one of the higher Internet accessible populations in the nation.

Demographics:

Gender

Gender

n=1,201

This reflects the census data for the state.

D2 AGE

Age

n=1,201

The age groups closely reflect the census data for Utah. When compared with census projections for 2005 there are some minor deviations.

Age Grp	2005	Survey	Deviation
18-24	14.6%	20.6%	6.0%
25-34	25.6%	22.0%	-3.6%
35-44	18.5%	20.2%	1.7%
