

eFiling Training for Government Filers

We will be offering eFiling "train the trainer" classes throughout the state for agencies that wish to have more detailed instruction beyond the printed materials. By utilizing the "train the trainer" method we will provide City, County, and State agencies an opportunity to send one class participant to become a specialist for their own offices. If you wish to register for a class please contact us by email at efiling@utcourts.gov, indicating which class you or your agency representative would like to attend.
