

1 **Rule 29. Stipulations regarding disclosure and discovery procedure.**

2 The parties may modify the limits and procedures for disclosure and discovery by
3 filing, before the close of standard discovery and after reaching the limits of standard
4 discovery imposed by these rules, a stipulated statement that the extraordinary
5 discovery is necessary and proportional under Rule 26(b)(2) and that each party has
6 reviewed and approved a discovery budget. Stipulations extending the time for or limits
7 of disclosure or discovery require court approval if the extension would interfere with a
8 court order for completion of discovery or with the date of a hearing or trial.
