**SALT LAKE COUNTY WEST DIVISION,

**SERVICE MATRIX FOR
CENTRAL SUBDIVISION,
AREA 59, BOOK 2**

Special Master R.L. Knuth

Civil No. 360057298 (59-2)

Pursuant to the Order of Special Master Knuth, made at the hearing on August 5, 2016,
the State Engineer, through undersigned counsel, submits this service list for the Salt Lake
County Central Subdivision of the Utah Lake and Jordan River Adjudication, Area 59 Book 2.

Pursuant to the Order, this Service Matrix provides the name of the original objector, the water
user claim number(s) for the water right(s) that are the subject of the objection (“Subject Water

Right(s)”) and the page number(s) of the Proposed Determination that relates to the Subject Water Right, the water right number(s) owned by the original objector if not the Subject Water Right (“Objector’s Water Right(s)”), segregations from the water rights owned by the original objector, if any (“Segregations”), and a service list that includes the address for the original objector and/or counsel of record (if any) and the address of the current owner(s) of the Objector’s Water Rights and Segregations as currently reflected in the Division of Water Rights database.

For some objections in Area 59 (Salt Lake County West), counsel for the State Engineer has listed service information for the current owner of the property where the Original Objector’s claim is located as reflected on the Salt Lake County Assessor’s website. Many of the objections in Area 59 concern a water right that was owned by the Original Objector, and the Original Objector is deceased. These water rights are located on parcels that have been transferred or sold and the parcels have not been subdivided. Because these water rights typically serve only one small property, usually a private residence or small business, it is relatively uncomplicated to trace the current ownership of the Subject Water Right to the current owner of the property. However, the State Engineer and his counsel have not performed a proper title search for the water right because of the time and expense involved in doing so. Therefore, while the current property owner is the likely owner of the water right, only a proper title search can confirm the current owner of the water right.
